

Nayoung Kim

nkim48@asu.edu | <https://nayoungkim94.github.io> | <https://www.linkedin.com/in/NayoungKimASU/>

RESEARCH INTERESTS

My research interest mainly lies within trustworthiness in **Machine Learning (ML)** and **Natural Language Processing (NLP)** algorithms and their applications, including algorithmic fairness and domain robustness.

EDUCATION

Arizona State University

Spring 2021 – 2025

PhD, Computer Science

Tempe, AZ

- Data Mining & Machine Learning Lab (Advisor: Dr. [Huan Liu](#))
- Funded by [DHS-CAOE](#) (Co-advisor: Dr. [Michelle V. Mancenido](#))

Korea University

2017 – 2019

MSc, Computer Science & Engineering

Seoul, South Korea

Korea University

2013 – 2017

BE, Computer Science & Engineering

Seoul, South Korea

TECHNICAL SKILLS

Machine Learning & NLP (PyTorch, TensorFlow, Transformers, OpenAI, LangChain, Scikit-Learn, Retrieval-augmented generation (RAG), Prompt engineering, Reinforcement learning), **Data Analysis** (Numpy, Pandas, Matplotlib, SQL), **Web Development & Cloud** (Flask, Streamlit, AWS, Google Cloud Platform), **Version Control & Containerization** (Git, Docker), **Collaboration & Communication** (Technical writing, project management, interdisciplinary teamwork)

WORK EXPERIENCE

AMD

August 2024 – December 2024

Software Development Intern

Austin, TX

- Applying machine learning, large language models, and advanced retrieval-augmented generation (RAG) techniques in software product lines.

DHS-CAOE

May 2022 – August 2024

Graduate Research Assistant

Tempe, AZ

- Developed and implemented NLP models for topic modeling and text summarization using BERT and Llama-2-7b.
- Partnered with an interdisciplinary team to design a trustworthy AI-enabled decision support system (AI-DSS) leveraging GPT-4 for intelligence analysis.
- Designed and managed an interactive data analysis and visualization dashboard using NodeJS and Flask.

ONR

Jan 2021 – Aug 2022

Graduate Research Assistant

Tempe, AZ

- Researched the integration of COVID-19-related online and offline data using topic modeling methods.
- Analyzed 2 million COVID-19-related tweets, focusing on sentiment analysis and stance detection.

Mathpresso

Jan 2021 – May 2021

Research Assistant

Tempe, AZ

- Led a project to automatically classify image-based mathematical problems by difficulty level.
- Implemented LaTeX format mathematical formula embeddings using Tangent-S and static word embeddings.

SELECTED PROJECTS

Towards Fair Language Modeling via Parameter-Efficient Methods by Machine Feedback 2024

- Ongoing project focused on mitigating social biases in large language models (e.g., T5, BERT, LLaMA 3) for toxicity and hate speech detection.
- Currently training large language models to learn fairness and reduce bias using reinforcement learning (RL) and parameter-efficient tuning methods (e.g., LoRA, P-tuning).

MEGAWATT: MAST for Evaluating Generative AI in Worker-Automation Team Tasks 2024

- Applied MAST (AI trust assessment tool) to evaluate baseline performance, inform improvements, and guide the adoption of OpenAI's GPT-4 for intelligence analysis (IA) tasks.
- Enhanced GPT-4 response quality through prompt engineering and advanced retrieval-augmented generation (RAG) for general conversation and various NLP tasks (e.g., text summarization, entity recognition).
- Conducted human subject studies to assess the suitability of both standard and improved outputs, including evaluating correct rejections of model outputs.

PADTHAI-MM: A Principled Approach for Designing Trustworthy, Human-centered AI systems using the MAST Methodology 2023

- Developed a novel AI design framework to enhance the trustworthiness of AI systems.
- Validated the framework by creating an AI-enabled decision support system, improving user trust perceptions.
- Analyzed participant ratings and trust-impacting factors, supporting the framework's effectiveness in boosting AI system trustworthiness.

EXTRACURRICULAR ACTIVITIES

Program Committee (PC) member of ASONAM 2024 conference	2024
Program Committee (PC) member of ASONAM, SBP-BRiMS 2023 conference	2023
Invited Reviewer for EMNLP 2023 conference	2023
Reviewer at ECML-PKDD, ACM MultiMedia, ASONAM, AAAI conferences	2022
Volunteer at WSDM 2022 conference	2022
Reviewer at ASONAM, IEEE CogMI conferences	2021
Volunteer at KDD 2021 conference	2021
Teaching Assistant for CSE 205: Object-Oriented Programming and Data Structures	2021 – 2022
